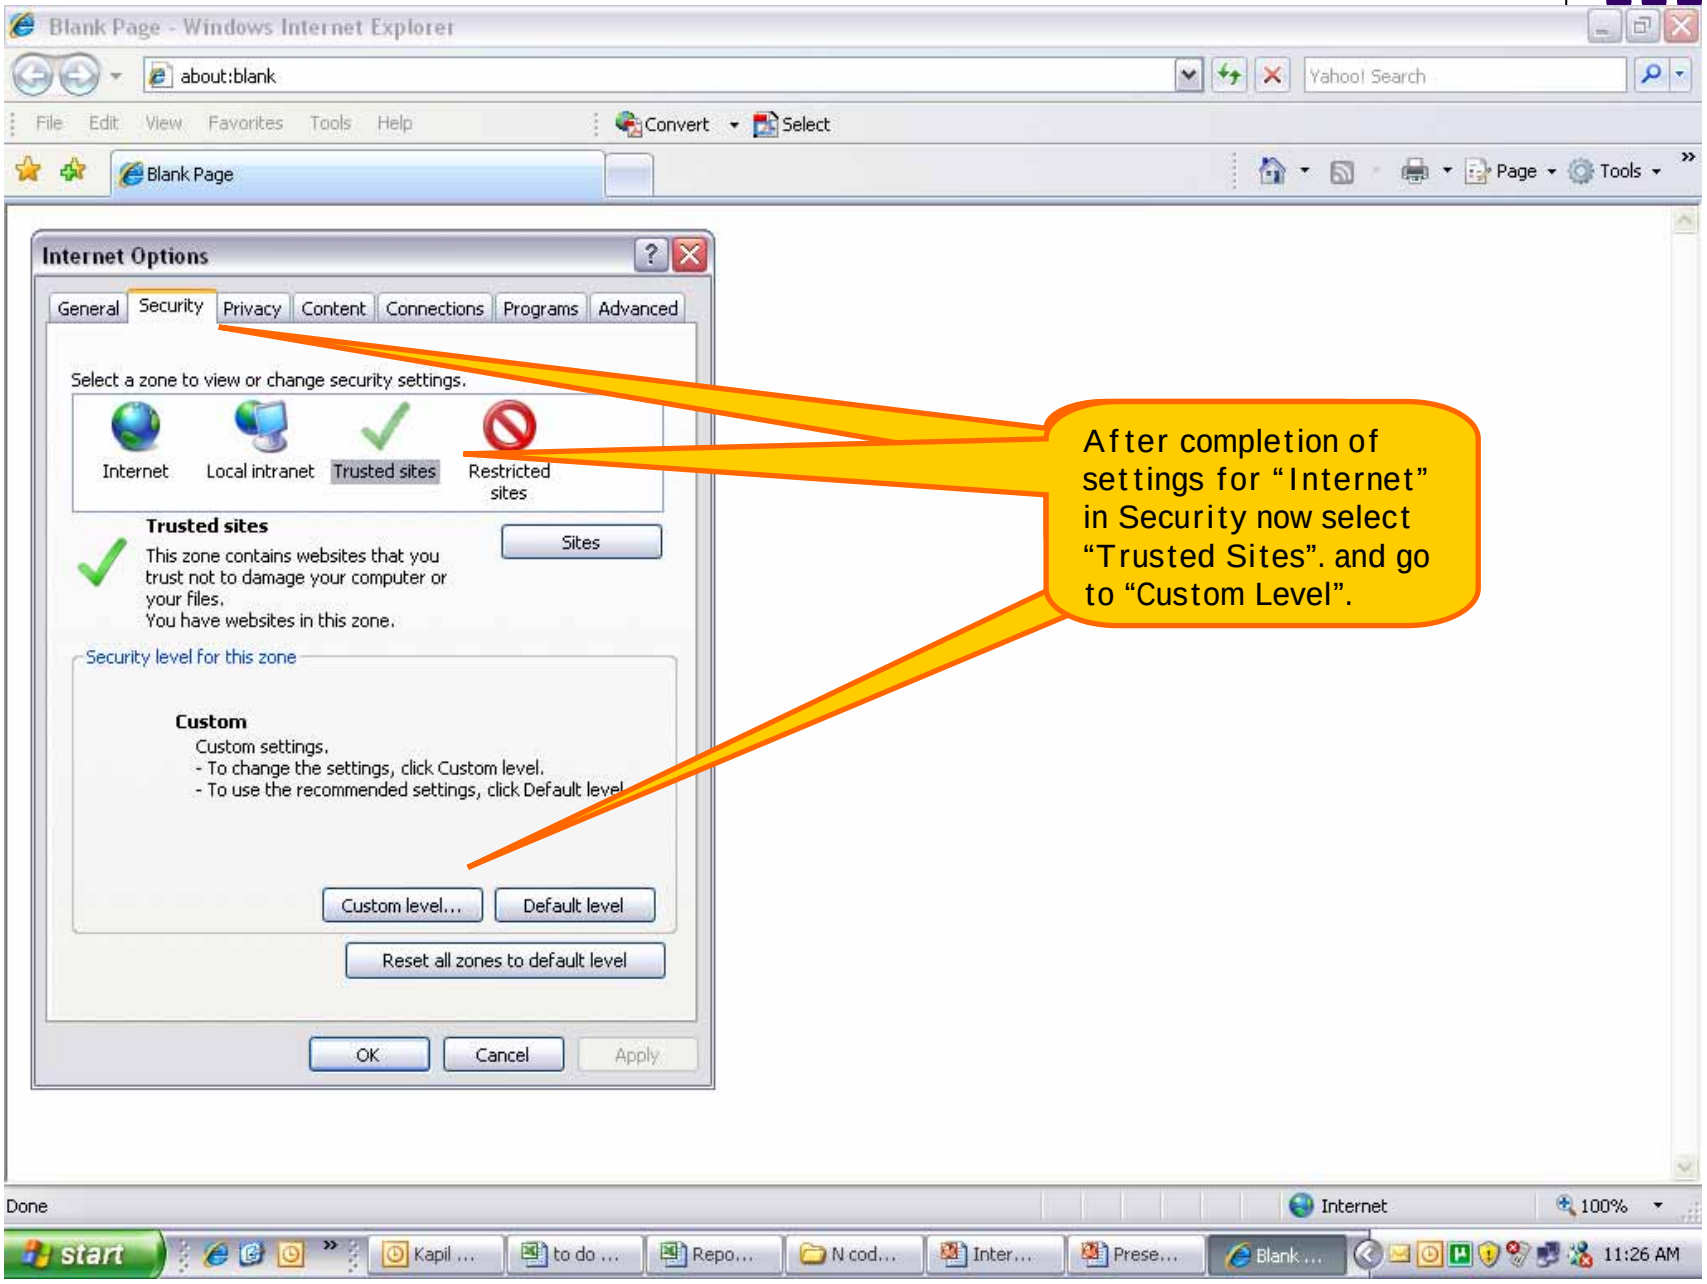
• As you click on the “Custom Level” many options will be displayed, some of which are to be set.

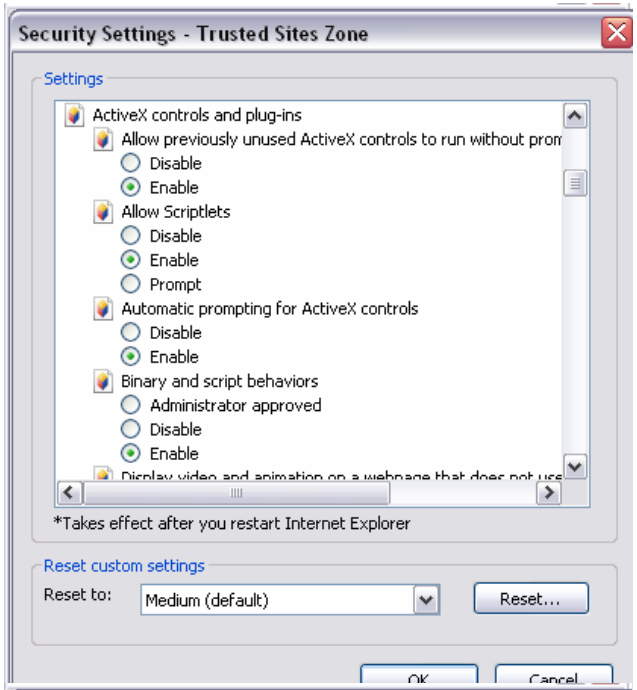
• Among all options only “Activex controls and plug-ins” has to set which can be seen in given three images and mention below details.

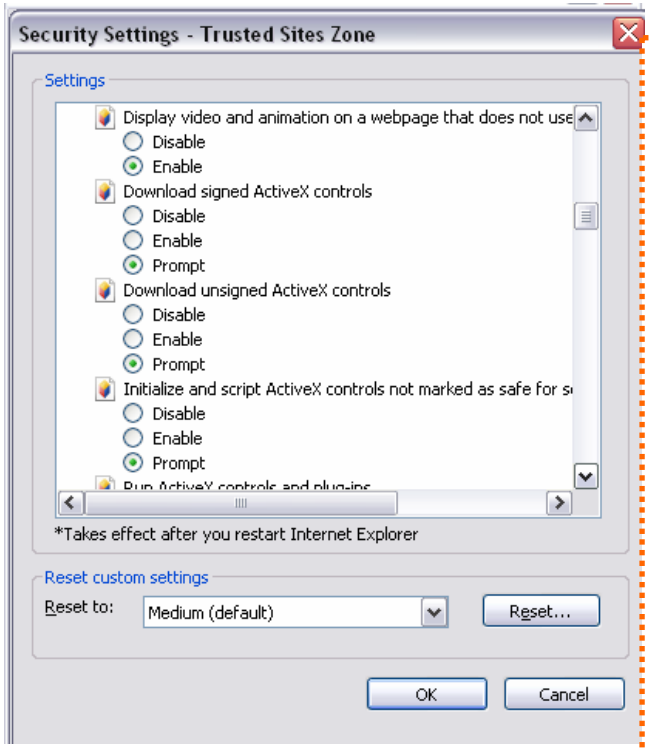
• After selecting all the options of Activex controls & plug-ins, select “Medium” in reset custom level, click on “OK and then YES”.

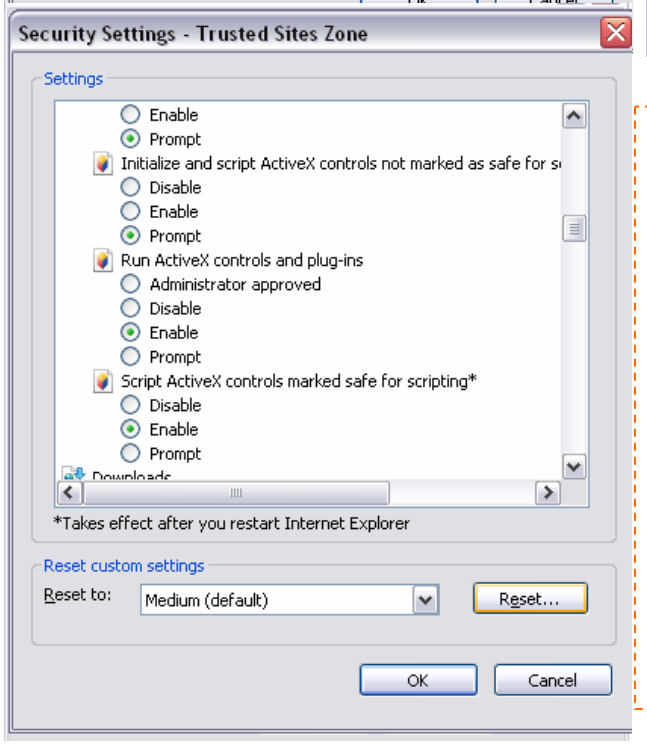
1. Allow previously unused Activex controls to run without prompt – **Enable**
2. Allow Scriptlets – **Enable**
3. Automatic prompting for Activex controls – **Enable**
4. Binary and script behaviors – **Enable**
5. Display video and animation on a webpage that does not use external media player – **Enable**
6. Download signed Activex controls – **Prompt**
7. Download unsigned Activex controls – **Prompt**
8. Initialize and script Activex controls not marked as safe for scripting – **Prompt**
9. Run Activex controls and plug-ins – **Enable**
10. Script Activex controls marked safe for scripting* - **Enable**



After completion of settings for “Internet” in Security now select “Trusted Sites”. and go to “Custom Level”.





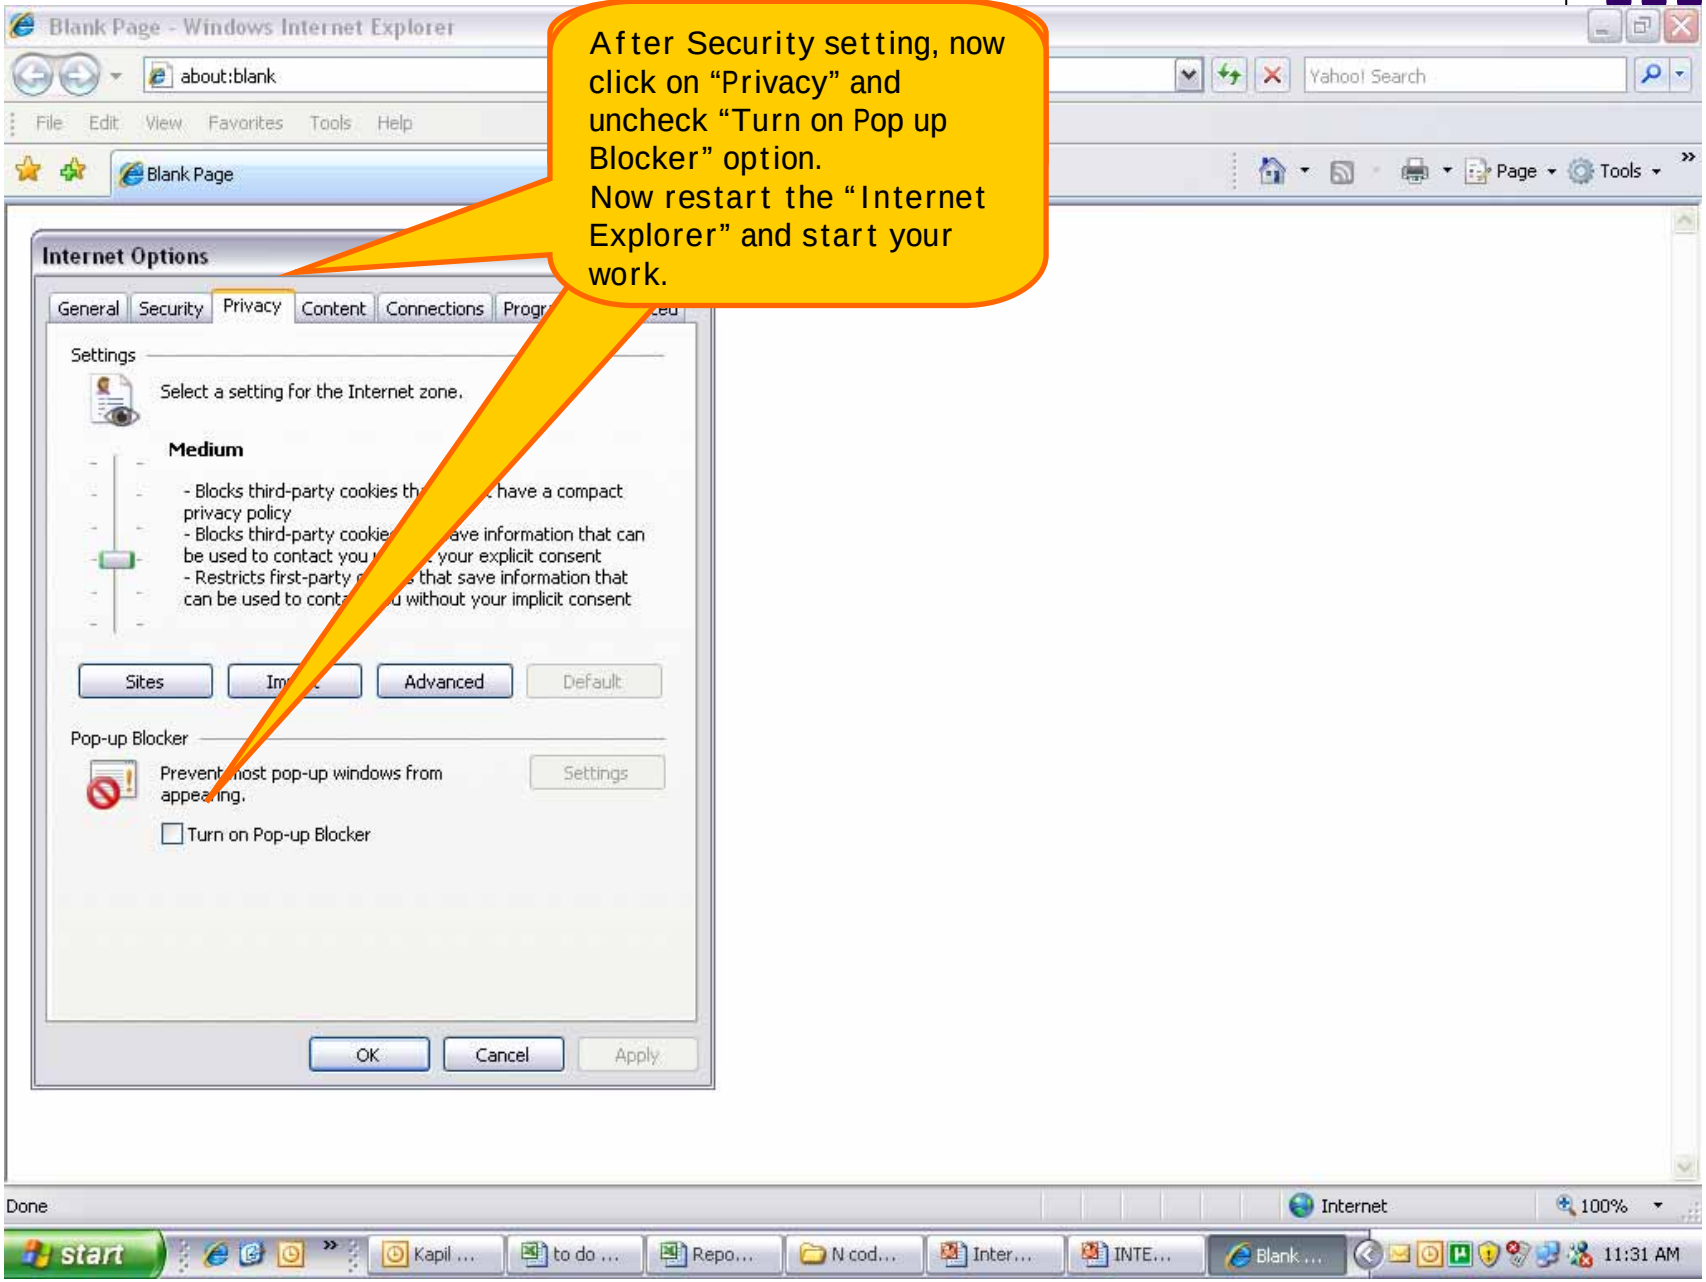


- As you click on the “Custom Level” many options will be displayed, some of which are to be set.

- Among all options only “Activex controls and plug-ins” has to set which can be seen in given three images and mention below details.

- After selecting all the options of Activex controls & plug-ins, select “Medium” in reset custom level, click on “OK and then YES”.

1. Allow previously unused Activex controls to run without prompt – **Enable**
2. Allow Scriptlets – **Enable**
3. Automatic prompting for Activex controls – **Enable**
4. Binary and script behaviors – **Enable**
5. Display video and animation on a webpage that does not use external media player – **Enable**
6. Download signed Activex controls – **Prompt**
7. Download unsigned Activex controls – **Prompt**
8. Initialize and script Activex controls not marked as safe for scripting – **Prompt**
9. Run Activex controls and plug-ins – **Enable**
10. Script Activex controls marked safe for scripting* - **Enable**



After Security setting, now click on “Privacy” and uncheck “Turn on Pop up Blocker” option.
Now restart the “Internet Explorer” and start your work.
